Subject: RE: Chicago check-in?

Katie

The Southside Recycling Health Consultation is still going through our review process, so no specific updates. We have responded to an inquiry from Cong. Joyce's office from Ohio, the district where RMG has their corporate office. Our policy office spoke with Ronna Beckman before having a call with their staffer last month. Motria and I met with RMG representatives and their contractors on June 16th to get more details about their operations and address specific questions.

Let us know when you have a version of the Air Quality Report for Chicago available so we can determine what could be included as background information in the Health Consultation. We can schedule a call in a couple weeks when a review draft of the document is available to share with EPA and other agencies.

Mark

Hi Mark, Michelle and Motria,

We have a meeting with CDPH on Thursday. Any updates on your health consultation? Our air quality report is still going through review. Let me know if it would be easier to talk and let me know some times that work for you. Thanks!

Katie Siegel, Chief
Air Toxics and Assessment Branch
